Connecting with Clients

■ **Tyson & Mendes LLP**

was recently recognized by Law360 as one of the “Best Law Firms

for Female Attorneys.” The national legal publication ranked the civil defense firm headquartered in San Diego as #12 in the “50-149 Lawyers” category. About 50% of Tyson & Mendes’ 140-plus attorneys are female, greatly outpacing the 36% national average as reported by Law360. In addition, roughly 80% of Tyson & Mendes’ non-attorney staff are women, resulting in about 63% of the firm’s overall employees being female. The firm’s commitment in this area is further demonstrated by its Women’s Initiative, which aims to provide the firm’s female attorneys and clients with mentoring and business development opportunities. Tyson & Mendes hosts events to address women’s issues in both the legal and insurance industries, and the gatherings have resulted in meaningful relationships being formed inside and outside the firm.
